Dear Edward,

As a citizen who has lived in Green Bay for a long time, you know how important the history and culture of Green Bay is to the community. But what if future generations do not know anything about how film played a part in Green Bay's history and culture?

The mission of the American Film History Museum is to educate the public in all aspects of the art of film and how film continues to impact our lives today. Your support for the American Film History Museum has allowed us to:

- Bring in exhibits from the world-renown studios of Marvel and Pixar
- Create new permanent film history exhibits such as the Film and Society exhibit
- Expand educational programs such as the Soundtracks and Film Summer Camp

With your support, we have also continued to engage the Green Bay community through our popular monthly film showings. Next month we are planning to show the silent film *Metropolis*. This will be a unique event because *Metropolis* will be shown in its original setting—in a movie palace! *Metropolis* will be shown in the Meyer Theatre, which used to be a movie palace in Green Bay during the 1930s. As a valued member of the Green Bay community, we would like to ask that you consider donating to the American Film History Museum and support us as we continue to carry out the mission of educating the public in the art of film.

We are losing knowledge of Green Bay's culture and history as people come and go in the "circle of life." Please consider donating to the American Film History Museum so that future generations may know the value of film history and the role film plays in their daily lives.

Thank you,

*George Bailey*
