

Before she found the violin in the forest, life was perfectly normal...

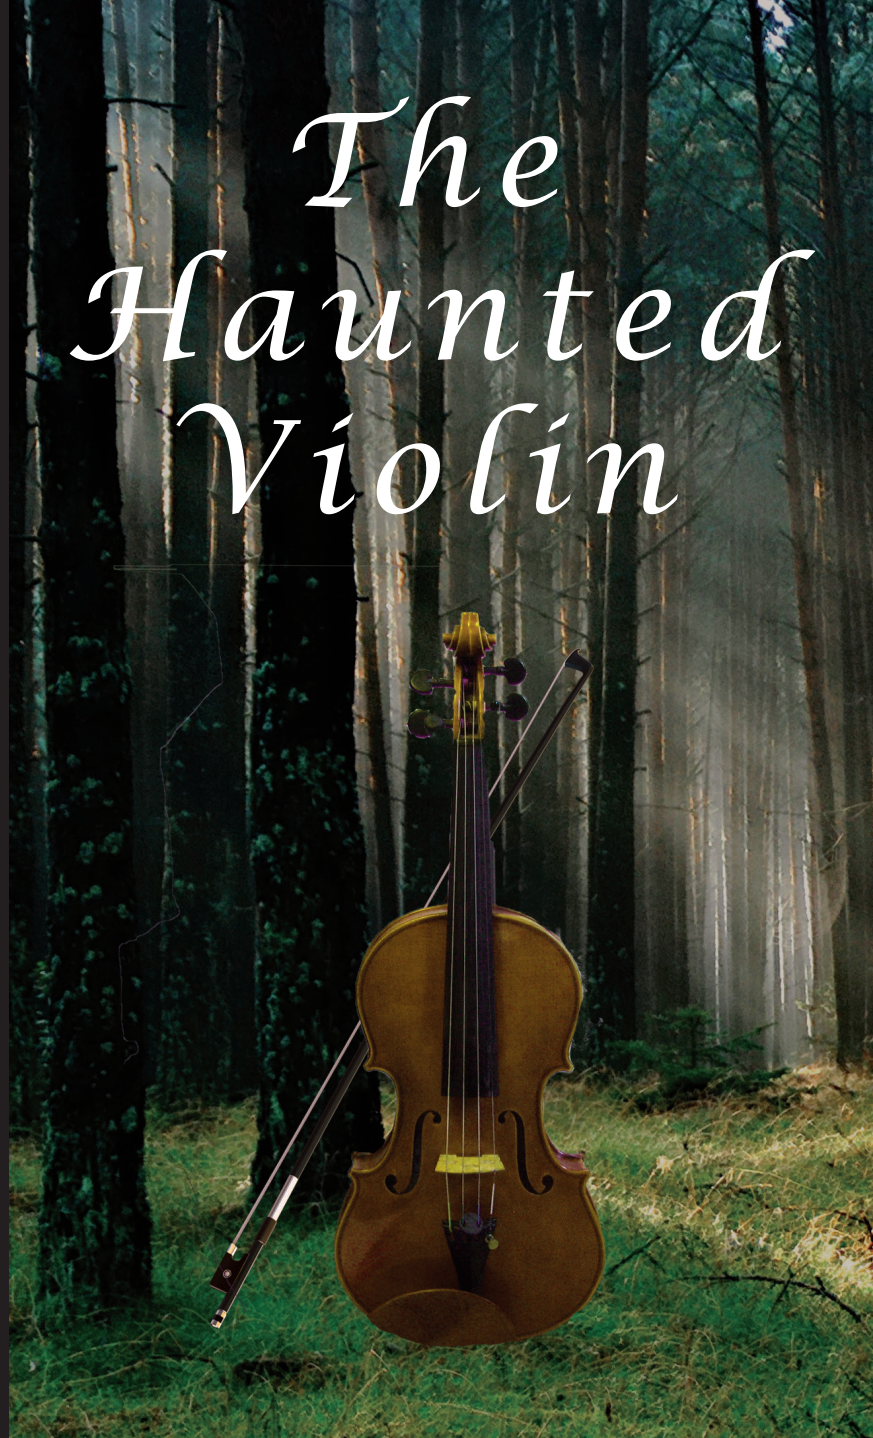

16-year-old Emily Sparrow found a violin in the forest as she was exploring one day. She thought it was a great treasure, but who knew that the violin was haunted by its former owner's ghost?

Each time Emily plays the violin, she awakens different memories of the violin—and the violin also inflicts harm on certain people while the violin is played. Can Emily put the violin's ghost to rest? Or will she be haunted by its chilling melodies for the rest of her life?
